# CHANGE YOUR LIFE With BEMER Technology

**T**he importance of being healthy becomes clearer when we are sick or suffering from ailments. But, it takes a personal commitment to stay healthy. We all have the capacity to feel more vital while performing at our best, but sometimes we need a little help. That's why **BEMER** has created an innovative application that can help you maintain your health and promote optimal function. Underlying its profound affect, **BEMER** technology is a unique multi-dimensional signal proven to influence hemodynamics through its effect on blood flow.

## The Significance of **HEALTHY BLOOD FLOW**

Blood flow is vital to maintaining and sustaining optimal function and homeostatic balance. It is the most important part of the human circulatory system in terms of function and takes place in the fine and extremely entwined network of the smallest blood vessels. Here it fulfills vital transport functions, such as supplying tissue and organs with oxygen and nutrients, disposing

of metabolic end products, and boosting the immune system. A restricted or impaired blood flow system leads to accelerated aging of cells, which can be the cause for many diseases and illnesses.

## What is **BEMER** **TECHNOLOGY?**

Many years of work have resulted in **BEMER** research making groundbreaking findings regarding the biorhythm of local and primary regulatory processes associated with blood flow. The core of **BEMER** technology is a multi-dimensional signal that effectively stimulates restricted or impaired circulation within the smallest blood vessels in the body, which helps to improve your overall health and well-being.

**BEMER** technology is easy to apply and anyone can use it. Many medical practices and clinics are implementing **BEMER** devices for preventive purposes and as a supplement to other treatments. It is also used in sports to enhance athletic training and accelerate the regenerative process. Best of all, the greatest benefits can be achieved with daily use right at home!

**BEMER** technology can help enhance:

- General Blood Flow
- Nutrient & Oxygen Supply
- Waste Disposal
- Cardiac Function
- Physical Fitness, Endurance, Strength & Energy
- Concentration, Mental Acuity, Stress Reduction & Relaxation
- Sleep Management

**BEMER** devices are the perfect personal and professional solution for the discerning everyday consumer. Using this technology can help you reduce susceptibility to infections, decrease consequences of stress, support the healing of wounds and sports injuries, increase performance capacity and maximize training intensity, shorten regenerative periods during sports training, improve fitness and lessen risk of sports injuries. Even after short application periods, a significant improvement can be seen in the circulation of the smallest blood vessels. These unique devices are the result of over 20 years of groundbreaking research and development that defines the cutting edge of what is possible today!

Purely You Spa  
is an authorized  
**BEMER**  
distributor!
